Pro Honda

OILS AND CHEMICALS

Only Pro Honda Offers Oils And Chemicals Designed To The Same Exacting Standards As Your Honda Motorcycle.

Nobody offers a more comprehensive line of motorcycle-specific oils and chemicals than Pro Honda. And nobody else crafts these products to the industry’s most demanding standards—Honda’s!

Pro Honda Oils and Chemicals are developed through the most severe test of performance and durability: professional racing. From the high banks of Daytona to the brutal Baja desert, Team Honda’s racing motorcycles and ATVs put our products to the test at every event. Unlike some oils and chemicals that are based on automotive products, Pro Honda Oils and Chemicals are motorcycle-specific products designed to meet the unique demands of motorcycle, scooter, SxS, and ATV riders and racers.

Take, for example, Pro Honda’s latest JASO-approved HP4S fully synthetic four-stroke engine oil. JASO stands for the Japanese Automobile Standards Organization. With strong input from Honda R&D, JASO established standards classifying the specific performance for motorcycle engine oils.
These standards were established to meet the higher demands of motorcycle engines. Compared to cars, motorcycle engines produce more power per displacement, run at higher RPM, and have smaller capacity oil volumes and cooling systems. Plus, motorcycles use their oil to lubricate their transmissions and clutches. Auto oils lack the ability to withstand the shear forces created by the transmission's gear teeth, which quite literally tear the oil molecules apart. Also, their antifriction additives can cause a motorcycle's clutch to slip. Pro Honda's latest HP4S, though, is formulated especially for use in motorcycles and ATVs to offer the ultimate in performance on or off the track.

Pro Honda offers—two-stroke oil, suspension fluids, coolant, brake fluid, air-filter oils, chain lubes, cleaners and other vital fluids—is formulated to be the very best. They’re what factory Honda race teams depend on to win! And nobody wins more National Motorcycle Championships than Honda.

Honda builds its Powersports products to the toughest engineering standards in the world. Pro Honda formulates its oils and chemicals to those same demanding standards to keep your Honda running at its maximum performance. They’re the very best motorcycle-specific products you can buy. And they are available exclusively at your Honda Dealer.

OILS

Pro Honda HP4S New Pro Honda HP4S is Honda’s first fully synthetic four-stroke motorcycle oil and was quite literally years in the making. HP4S offers lower friction than conventional oils, better oxidation resistance for better high-heat performance, higher film strength and quicker flow to vital engine parts at low temperatures, especially during startup. And best of all, HP4S provides maximum power due to less frictional drag. HP4S is approved for use in all 2006 or newer motorcycles, ATVs, Scooters and PWC. It is, quite simply, our very finest four-stroke oil. HP4S is compatible with synthetic blends such as HP4, as well as regular petroleum oils like GN4. There is no need to flush the crankcases before switching to HP4S.

Pro Honda HP4 Thanks to the establishment of JASO standards, HP4’s extraordinary additive package offers increased antifoaming qualities, a higher viscosity index for stability over a broader range of temperatures, and even greater shear stability than most other oils. Naturally, HP4 blends the heat stability and shear resistance of synthetic oil with mineral oil’s natural lubricity, yielding premium-quality four-stroke engine oil. Best of all, HP4 is approved for use in all Honda Powersports products.

Pro Honda HP4M A synthetic/mineral-oil blend that combines the very best qualities of both types, HP4M also features a comprehensive additive package and friction-reducing molybdenum compound for maximum fuel economy and peak horsepower. HP4M—the Pro Honda oil good enough to win a multitude of AMA National championships, as well as the grueling Baja 500 and 1000.

Pro Honda HP2 Pro Honda HP2 is simply the finest two-stroke oil money can buy. Premium synthetic base stocks with high film strength give maximum wear protection while allowing a crisp 32:1 mixture ratio. The extremely clean-burning formula minimizes carbon deposits, extends spark-plug life and reduces maintenance on Honda Power Port and ATAC systems. Special additives minimize friction for cooler running, maximum horsepower and quicker throttle response.
Pro Honda GN4 Honda set the standard for motorcycle oil when it introduced GN4 way back in 1975. We selected the highest-quality base stocks and created an additive package specifically designed for the unique requirements of motorcycle and ATV engines. Constant testing and development give today’s GN4 even better shear resistance, viscosity stability and cleanliness to meet the requirements and stresses of a new era of engine technology.

Pro Honda GN2 Pro Honda GN2 is the only oil that has been tested and approved by Honda R&D for use in all older liquid-cooled and air-cooled two-stroke Honda Motorcycles, ATVs and Scooters. Its unique, clean-burning formula reduces exhaust smoke, carbon buildup and varnish deposits, and helps prevent spark-plug fouling, ring sticking and exhaust plugging. GN2’s superior lubrication extends service life for piston rings and bearings, and helps prevent against rust and corrosion.

Pro Honda HP Trans Oil Cutting-edge, high-performance racing transmission oil specifically formulated for all Honda CR and FourTrax® 250R models. HP Trans Oil is also the hot tip for use in all Honda CRF four-stroke transmissions. Transmission gears can whip conventional oil into a froth, and intense pressure at their teeth can lead to metal-to-metal contact. HP Trans Oil offers ultrahigh film strength and shear stability to minimize transmission wear, while its high thermal stability prevents foaming and premature oil breakdown. Special antifriction additives allow smoother shifting, while minimizing drag and power loss. Antishear additives increase clutch life, reducing clutch slippage.

CLEANERS AND POLISHES

Pro Honda Metal Polish
- Restores original luster to aluminum, chrome and stainless steel surfaces.
- Restores original color and shine to most painted surfaces.*
- Restores clarity to lightly scratched windscreens and faceshields.
- Also restores shine to lightly scuffed or discolored plastic lenses and bodywork.
- Lowest abrasion levels of popular brands.
- Recommended for the Gold Wing® and other fine motorcycles.

* Use on nontextured surfaces only. For best results, test first on an inconspicuous area. See application instructions on back label.
† Not pictured.
Hondagloss Liquid Polish and Sealant

- Cleans, polishes, seals and protects in one easy application.
- Can be applied in any weather, including direct sunlight and rain.
- Safe for all painted surfaces, including clear coats and decals.*
- Excellent for windscreens, faceshields, shiny plastic, chrome, aluminum and other nonporous surfaces.
- Forms a protective shield against UV rays, acid rain and pollutants.
- Unique formula contains no yellowing carnauba wax.
- Long-lasting shine protects for several months.
- Recommended for the Gold Wing and other fine motorcycles.

Spray Cleaner and Polish

- The #1-selling, original industry standard.
- Exclusive Honda formula—superior performance at an economical price.
- Complete detailer in a can.
- Cleans road grime, grease and bugs without water.
- Polishes paint, chrome, glass and clear plastic.
- Protects vinyl, plastic and rubber.
- Blocks UV rays to reduce fading and cracking.
- Repels water and makes it bead up like on a wax finish.
- Antistatic properties reduce dust buildup.

Hondabrite™

- Cleans an entire motorcycle or ATV in just minutes.
- Removes dirt, oil, road grime and insects.
- Cleans paint, chrome, alloy and rubber.
- Contains powerful corrosion inhibitors.
- Easy to spray on and hose off.
- Surface safe when used as directed.

VITAL FLUIDS

KYB Fork & Shock Oil
- Genuine KYB fork and shock oil specifically designed for the CRF450R equipped with KYB suspension.

HP SS-19, SS-25 Fork & Shock Oil
- Specifically designed for the CRF250R equipped with Showa suspension.
- All-new formula engineered for the next generation of performance motorcycles.

HP Coolant
- Exclusive formula developed by Honda R&D.
- Specifically designed for use in aluminum engines.
- Uses high-tech organic corrosion inhibitors instead of more commonly used silicate corrosion inhibitors.
- Unlike silicates, HP Coolant’s organic corrosion inhibitors won’t gel and cause radiator plugging.
- They are also more stable for a longer shelf life and don’t act as abrasives to mechanical water-pump seals, which may cause leaky seals.

HP Fork Oil 5W
- Friction-modified formula specifically engineered for the latest in suspension technology from Showa and KYB.
- Minimizes stiction and cavitation, providing optimum performance for all Honda inverted-fork suspension systems.

HP Fork Oil SS-47
- Original equipment on several 2007 and newer motorcycles.

SS-7 5W Suspension Fluid
- Genuine Showa fluid designed for use with cartridge-type and standard forks, as well as rebuildable rear shocks including Pro-Link® systems.
- Replaces ATF recommendations in Owner’s Manuals.
- Gold in color.

SS-55 10W Suspension Fluid
- Original equipment on several 2003 and later motorcycle models.

HP Fork Oil SS-19
- Single-application hypoid gear oil SAE 80W90.
- Approved for use in Honda Gold Wings and other shaft-drive motorcycles and ATVs.
- Exceeds API service classifications GL-4 and GL-5.

Fuel Stabilizer by Sta-Bil®
- Genuine Sta-Bil formula eliminates the need to drain fuel for engines stored longer than 60 days.
- Prevents rust, corrosion and fuel deposits.
- Available in convenient 1-oz packets, 8-oz. and 32-oz. bottles.

SS-8 10W Suspension Fluid
- Genuine Showa fluid designed for use with cartridge type or standard forks.
- Recommended for firmer handling or heavier loads.
- Bright red in color.

* Not pictured.
**DOT 4 Brake Fluid**

- High-temperature formula for heavy-duty or racing applications.
- Designed for use in all hydraulic brake and clutch systems requiring DOT 3 or DOT 4.

**Pro Honda Foam Air-Filter Maintenance Products by No Toil**

- Eliminates the need for toxic chemicals when servicing air filters.
- Pro Honda biodegradable filter oil is super tacky, trapping more dirt yet flowing more air than conventional air-filter oils, resulting in superior performance.
- Pro Honda air-filter cleaning system is available as a three-piece kit containing filter oil, filter cleaner and filter rim grease.

**Caution:** Cannot be used to clean filters already treated with conventional petroleum products.

**SERVICE AND MAINTENANCE**

**Chain Cleaner**

- Prepares chain for re-oiling.
- Emulsifies and removes dirt, grime and built up grease.
- Spray on—rinse off.
- Safe on all types of drive chains.

**Chain Lube with White Graphite**

- Advanced technology for the ultimate in lubrication and protection.
- Contains White Graphite for superior lubrication.
- Resists wear and weather for long-lasting lubrication.
- Compatible with both O-ring and non-O-ring chains.
- Works at both high- and low-temperature extremes.
- No-fling formulation.

**Chain Lube with Moly**

- Contains Moly and PTFE for superior lubrication.
- Resists wear and weather for long-lasting lubrication.
- Compatible with both O-ring and non-O-ring chains.
- Works at both high- and low-temperature extremes.
- Contains no chlorinated solvents or CFC’s.
- No-fling formula.

**Silicone Spray**

- Lubricates plastics, rubber and vinyl.
- Eliminates sticking and squeaking.
- Safe for painted surfaces.
- Colorless formula will not stain surfaces.
- Provides lubrication from -80° F to 600° F.
White Lithium Grease

- Heavy-duty, general-purpose lubricant.
- Penetrates between parts to provide deep, long-lasting lubrication.
- Displaces moisture and protects against rust and corrosion.
- Works at both high- and low-temperature extremes.
- White color shows coverage to help ensure complete application.
- Low VOC formula meets current CARB and OTC standards.
- Contains no chlorinated solvents or CFCs.

Hondalube/Rust Penetrant

- Displaces moisture and protects against rust and corrosion.
- Frees rusted parts.
- Lubricates all metal surfaces.
- Low VOC formula meets current CARB and OTC standards.
- Contains no chlorinated solvents or CFCs.

Glass Cleaner

- Quick-foaming formula cleans glass, mirrors, headlights and chrome surfaces without streaking.
- Available in 12-oz. aerosol cans or 12-oz. pump spray containers.
- Note: Not pictured, available in Honda Automotive packaging only.

Carburetor Cleaner

(Nonchlorinated, 50-State Legal)

- Cleans throttle and choke linkages.
- Decarbonizes intake- and emission-system components.
- Computer oxygen sensor safe.
- Ultra-low VOC nonchlorinated formula.
- Legal in all 50 states.

Contact/Brake Cleaner

(Ultralow VOC, California and Utah Compliant)

- Removes grease and oil quickly.
- Cleans brake drums, liners, cylinders and springs.
- Safe for most plastics.
- Meets SCAQMD Rule 1171 requirements for unlimited use.
- Ultralow VOC nonchlorinated formula.
ASSEMBLY AND REPAIR

Anti-Seize Compound
- Protects against rust and corrosion caused by chemicals.
- Provides excellent protection over an extended period for threaded fittings.
- Waterproof.
- Prevents metal parts from galling and seizing.
- Protects against temperatures up to 2,600°F.

Moly Paste (M77)
- Contents are solid and will not separate at room temperature.
- Recommended for Pro-Link linkages, gears, bearings and other high-pressure, high-temperature applications.

Other Greases Available (but not pictured)
- CV Joint Outer Grease
- Unirex N3 Grease
- Marine Grease

Hondalock 1
- Low-strength, blue-colored threadlock for frequently removed and/or low-torque fasteners.
- Protects against corrosion and wear.
- Resists vibration, moisture and most chemicals.

Hondalock 2
- Medium-strength, orange-colored threadlock for medium-torque fasteners.

Hondalock 2HT
- High-temperature, red-colored threadlock for medium-torque fasteners in high-temperature applications such as cylinder head exhaust studs.

Hondalock 3
- High-strength, green-colored threadlock for semipermanent and/or high-torque fasteners.
- Helps retain gears, bearings and pulleys to their shafts.

Hondalock 4
- Medium-strength, orange-colored threadlock for medium-torque fasteners.

Hondalock 2HT
- High-temperature, red-colored threadlock for medium-torque fasteners in high-temperature applications such as cylinder head exhaust studs.

Hondalock 3
- High-strength, green-colored threadlock for semipermanent and/or high-torque fasteners.
- Helps retain gears, bearings and pulleys to their shafts.

Hondalock 4
- Medium-strength, orange-colored threadlock for medium-torque fasteners.

Hondabond HT
- High-temperature, silicone liquid gasket.
- Unique formula is nonacidic and won’t corrode aluminum like other silicon gasket products will.
- For use in applications not requiring solid gaskets.

Hondabond 4
- Semidrying liquid gasket.
- Seals irregular surfaces with a tough, elastic film.
- Solvent-based for easy removal; also resists gasoline.

Weatherstrip Cement
- Permanent, waterproof cement that remains elastic after drying.
- Adheres to rubber, plastic and metal.
- Glues in loose O-rings during assembly.
- Excellent for vinyl and leather repairs.
Handgrip Cement

- Required when installing PVC-type handgrips.
- Ideal for use on rubber handgrips and footpeg covers, plus kickstart and shift-pedal rubbers.

Dielectric Grease

- Nonconductive waterproofing compound.
- Insulates electrical connections and adheres to most surfaces, sealing out moisture, dirt and corrosion.

TIRE SEALANT

ATV Flat Proof

- Easy cleaning, water-soluble formula.
- Contains a rust inhibitor that prevents corrosion.
- Easy installation requires no tire removal.
- Seals punctures up to 4 mm in diameter.
- Available in convenient 16-oz. bottles and 5-gallon pails.

**Pro Honda Tie-Down Set**

- White-zinc-plated cam buckle with Honda logo.
- Offered in Red, Black and Blue colors.
- Includes two 5.5' long x 1"-wide webbed straps.
- 1200-lb. tensile strength.
- Vinyl-coated S-hooks.
- Includes two soft straps.

**Pro Honda Fast Funnel**

- Disposable handy funnel that is sold as a three-pack.
- Folds flat for easy storage.
- Convenient, inexpensive and compact—stores easily.
- Eliminates contamination, no need to clean funnels between uses.
- Sold in dealer multiples of 36 three-packs.

**Pro Honda Helmet Bag**

- Heavy-duty Cordura nylon shell for strong, weather-resistant storage.
- Faux-fur interior lining protects against scratches.
- Internal pocket stores spare faceshield.
- Bottom slot allows helmet strap D-rings to fit most helmet locks.
- Removable shoulder strap for convenient “hands-free” carrying.
- Black with a distinctive, red Honda wing logo and red piping.

**Pro Honda Cam Chain Tensioner Holder**

- Fits CRF250R/X, CRF450R/X, TRX450R/ER and XR650R off-road machines.
- Also fits ST1300, VTR1000, VF750C, 599, CBR600RR and CBR1000RR street machines.
- Negates the need for sloppy, homemade tools.
- Features a tiny, one-way Sprague clutch.

**Pro Honda Cam Sprocket Holder**

- Durable tool steel construction.
- Stabilizes camshaft for easy sprocket bolt removal.
- Fits CRF450R/X and TRX450R/ER.

**Pro Honda Optimate 3 Automatic 5 Stage Battery Charger**

- Automatically recovers, monitors and maintains all types of 3.5 to 32 amp-hour Power Sports batteries.
- Utilizes an advanced diagnostic program to detect and deter sulfates.
- Breaths new life into most neglected batteries.
- A “must-have” for PWC owners or in cold-weather climates.
**Pro Honda No-Spill Gas Cans**

- CARB-approved in convenient 1.25, 2.5, and 5.0 gallon sizes.
- Feature a thumb-button controlled, auto-stop fuel spout.
- Fuel flow automatically stops when fuel reaches the edge of the spout.
- High flow rate with stainless steel filter screen.
- Meets state fuel-can requirements in CA, CT, DC, DE, MD, ME, NJ, NY and PA.
